

WACKER NEUSON 5001 Compact Dumper

General characteristics

Brand	WACKER NEUSON
Subcategory	Site dumper wheeled
Year of construction	2013
Hours displayed	3630
Colour	Green
Condition	Used
General state	Very good
Fuel	Diesel
CE marking	Yes

Properties

Single weight	3.325kg
---------------	---------

Description

Wacker Neuson 5001 Compact Dumper Brand: Wacker Neuson Model: 5001 Type / Version: D02-06 Machine type: Compact Dumper / Articulated Dumper Year of manufacture: 2013 Operating hours: 3,630 hours Serial number / VIN: WNCD0206KPAL00265 CE marked: Yes Technical Specifications Operating weight: 3,325 kg Transport weight: 3,250 kg Maximum payload: 5,000 kg Maximum permissible weight: 8,325 kg Permissible front axle load: 6,025 kg Permissible rear axle load: 6,000 kg Engine: Deutz diesel engine Engine type: Deutz TD 2011 L04 W Number of cylinders: 4 Engine power: 47.5 kW / approx. 65 HP Rated speed: 2,300 rpm Fuel: Diesel Particulate reduction system: P50U Drive & Chassis Drive: 4x4 / Four-wheel drive Transmission: Hydrostatic Steering: Articulated steering Tyres: Off-road tyres Maximum speed: approx. 25 km/h Dumper Body Payload: 5,000 kg Tipper body: Hydraulically operated Type: Swivel tipper body Swivel function: Yes Forward tipping: Yes Side tipping: Left and right The hydraulic swivel tipper body allows the load to be discharged forwards as well as to either side, making this dumper very suitable for working in confined spaces. Equipment 4x4 four-wheel drive Hydrostatic transmission Articulated steering Hydraulic swivel tipper body Off-road tyres Open operator's station ROPS safety bar Operator's seat Road lighting Rear towing point 25 km/h version CE marking Approximate Dimensions Overall length: approx. 4,420 mm Overall width: approx. 1,920 mm Overall height with ROPS: approx. 2,750 mm Ground clearance: approx. 380 mm Description Wacker Neuson 5001 Compact Dumper, year 2013, with 3,630 operating hours. Robust 5-ton articulated site dumper equipped with a Deutz 4-cylinder diesel engine producing 47.5 kW (approx. 65 HP), four-wheel drive and hydrostatic transmission. The machine is equipped with a hydraulically operated swivel tipper body, allowing material to be discharged forwards, to the left or to the right. This makes the machine particularly suitable for earthmoving, road construction, construction sites and working in confined areas. Year: 2013 Operating hours: 3,630 h Payload: 5,000 kg Operating weight: 3,325 kg Maximum permissible weight: 8,325 kg Engine: Deutz TD 2011 L04 W Engine power: 47.5 kW / approx. 65 HP 4x4 Swivel tipper body 25 km/h CE marked
